EKO FIT POLYMER SHELVING SYSTEM

Conforms to NSF/ANSI standard 2 - food equipment, for all environments including fridges and freezers

EKO FIT POLYMER SHELVING

THE MOST FLEXIBLE SHELVING SYSTEM AVAILABLE, WITH LENGTHS UP TO 2 METRES AND 330 SIZE VARIATIONS

- Superior strength and hygiene, ideal for all food service areas including coldrooms and freezers
- Load bearing parts are manufactured with high strength anodised aluminium, up to 250kg per shelf, 1000kg per bay UDL
- Plastic components moulded to high resistance using basic acids and bacteria proof raw materials
- Easily removable and dishwasher proof shelf slats
- Temperature resistance range is -30°C to +90°C
- Accreditations from NSF and NF.

*NOTE: Load capacity based on static units. Load capacities may vary according to design. Please contact us for accurate load bearings for your desired design. Shelf elements suitable for cleaning in standard commercial dishwasher and detergents. Not suitable for use in autoclaves. Easy to clean wipe down surface or simply remove slats.

FOOD GRADE

means that foods must be stored direct in our shelving systems without being wrapped in packaging.

AVAILABLE IN

- 5 depths – 300, 375, 450, 525 and 600mm
- 22 lengths – 470 – 2045mm in 75mm increments
- 4 heights – 1550mm, 1700, 2000 and 2450mm

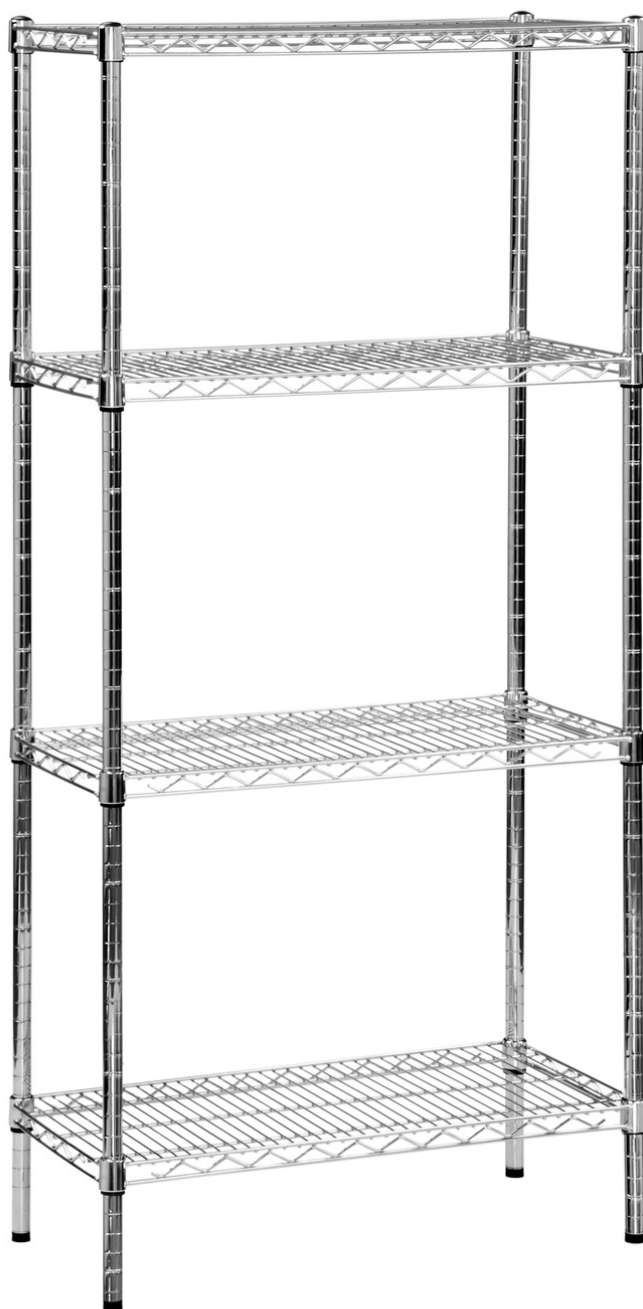

WE HAVE THOUGHT OF EVERYTHING

- 1 No corner posts to impede access to products
- 2 All joints are concealed so there are no screws or other fittings to get caught or cut on
- 3 Both aluminium and PE-HD slats are devoid of sharp edges
- 4 As none of our materials can rust, they cannot develop hazardous burrs or peeling
- 5 Our slats prevent packaging from freezing to the shelf and thus being ruined and posing a handling risk
- 6 Specification of load capacity on every single shelf protects against overloading
- 7 Optional white boards on terminal frames prevent products from sliding out and can function as information boards at the same time
- 8 Removable polyethylene shelf elements for easy cleaning

ECLIPSE® STAINLESS STEEL WIRE

Conforms to NSF/ANSI standard 2 - food equipment, for all environments including fridges and freezers

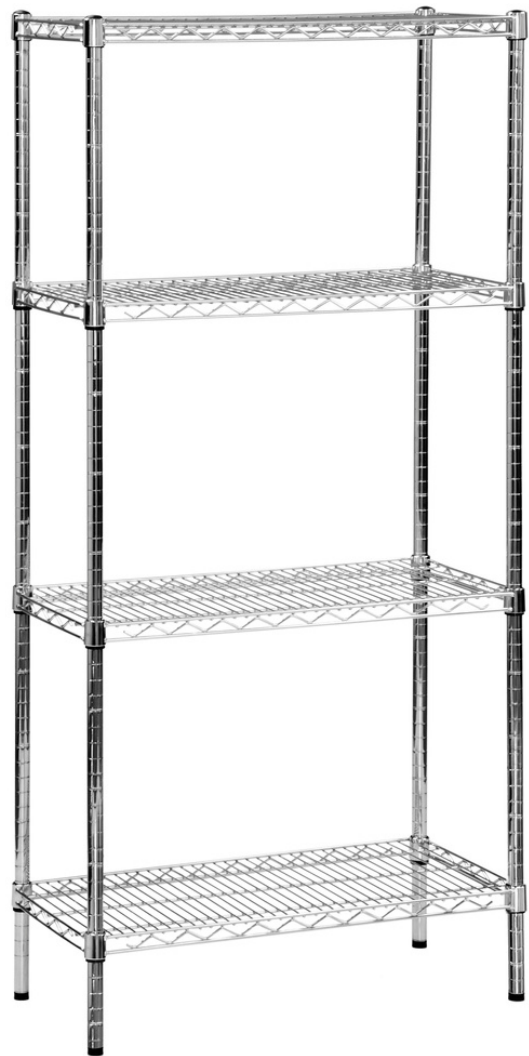

Depth (mm)	Length (mm)
